LCA Customer Newsletter **April – June 2026**

2025 Water Quality Reports Are Now Available Online:

Every year, Lehigh County Authority (LCA) shares Water Quality Reports that show how we test and treat your water. We work hard all year to make sure your water is clean and safe!

Want to know more about your water? Find the website link for the water quality report for your area on the back of this newsletter. You can also explore our water quality map by typing in your address! Head to www.lehighcountyauthority.org and look for "About Your Water" under "Your Drinking Water." **Need a paper copy?** You can print one from the website or call us, and we'll mail one to you. You can reach our Customer Care Team by calling 610-398-1444.

Attention landlords, businesses, schools, restaurants, and other large employers! Please share this information with tenants, students, employees, patrons, and other water users at your location who do not receive an LCA water bill.

Este informe contiene información muy importante sobre tu agua potable. Traduce la información o habla con alguien que pueda ayudarte.

Drought Warning In Effect: Help Protect Our Water Supply

Lehigh County remains under a Drought Warning due to persistent dry conditions and lack of rain. LCA continuously monitors local water supplies and shares reports on our website. To read the reports online, use the "Your Drinking Water Tab" to find "Water Supply Updates." View Pennsylvania drought conditions on the state's website, https://www.pa.gov/, using the search words **drought information**.

During the drought warning, LCA customers' help is needed to protect local water supplies. Voluntarily reduce your water use by 10-15% by following the tips on our website: https://www.lehighcountyauthority.org/conserve-water/.

Water System Flushing Program: Our annual system flushing program is underway. Flushing removes sediment that naturally builds up in water lines and helps maintain water quality. Flushing runs from late March through August. **Brown Water Notice:** Temporary water discoloration may occur due to disturbed sediment. This affects appearance only and does not pose a health risk. If discoloration does not clear up after running cold water for a few minutes, contact LCA.

Thank you for your help and cooperation in conserving and protecting water!

***NEW* Monthly Newsletter:** If you haven't received our email newsletter, we don't have your email address. Sign up on our website on the **News & Updates** tab or scan the QR code below!

Your Water Quality Report is Now Available Online!

Each year, we provide our customers with an annual Water Quality Report to let you know how our water quality stacks up against federal and state standards for safe drinking water. We encourage you to review these reports, which provide details about the source and quality of the drinking water delivered to your community in 2025.

Use our interactive water quality map to search for reports by property address. Look for "About Your Water" under the "Your Drinking Water" tab on our website, www.lehighcountyauthority.org. **Need a paper copy?** You can print one from the website or call us, and we'll mail one to you. You can reach our Customer Care Team at 610-398-1444.

Attention landlords, businesses, schools, restaurants, and other large employers! Please share this info with tenants, students, employees, patrons, and other water users at your location who do not receive an LCA water bill.
